M'AUILLIFFE WINS THE FIGHT

Putting Out Myers in 15 Rounds.

THREE HUNDRED SPORTS ARRESTED IN CHICAGO.

Decision Involving Mineral Lands Near this City.

Special to the APPEAL

McAuliffe Wins.

New Orleans, Sept. 5.—Jack McAuliffe defeated Billy Meyer tonight in 15 rounds. Both were cautious up to the 3rd round, when some heavy body blows were exchanged with honors even. The 4th, 5th and 6th were uninteresting. In the 7th Mac was staggered by a blow on the neck, but in the 8th he drew first blood. There was some terrible infighting in the 9th, Jack having the best of it. There was hard fighting from the 10th to the 12th, Mac being the fresher. In the 13th Myers was put out by a couple of punches on the neck.

The Result at the Bay.

San Francisco, Sept. 5.—There was more money bet here on the McAuliffe-Meyer fight than on the other two. McAuliffe was the general favorite and the sports are happy over the result. Ten thousand people watched the bulletins.

Nevada Land Decision.

Washington, Sept. 5.—The Secty. of the Interior has decided the case of the Keystone Lode and Millsite Company vs. the State of Nevada on appeal from the Commissioners' decision, involving mineral land at Carson City. The Secretary affirmed the Commissioners' decision, and says grants of land to States for school purposes does not include lands. Such lands were, by special policy of the general government, excluded from all grants.

John Donlan while riding with Mr. Pete VanSickle on the Genoa road met with a severe accident yesterday by being jostled off the seat. He lit on his left eye and tore it out besides fracturing his skull. Pete tried to lift the wounded man back on the wagon but he was unconscious and very heavy and it was found necessary to go to the Poor Farm for assistance. Donlan was brought back and received medical assistance. He was resting easier at last accounts.

MARRIED.

At the Catholic Church, in this city, September 4, 1892, by the Rev. Father Sheridan, James Savage and Miss Lizzie Blake.

A Deciple of Walton.

Abe Cohn took a flying trip to Boca recently for the purpose of doing a little trout fishing in the streams around that locality. He refused to go into the beaten paths where other anglers had been successful, but insisted on making a bee line for Alder Creek, where he heard the trout would bite night and day. His guide lead him up a long canyon beside a little stream no larger than could issue from a beer keg.

"Well say," remarked Abe, "where is the fishing in this gutter?"

"Oh just up a few miles more, some chumps dammed the creek up to make a deep hole and it don't leak very fast."

"Well say," enquired Cohn again "do these trout bite night and day at all hours, at any kind of a fly?"

"Oh yes; I'll show you the boss fishing in a few hours, just keep your ballbriggan on, you're all right."

The sun was hitting Cohn pretty hard and the little stream was growing less every mile. The guide got some hundred yards ahead and sat down on a rock looking into the canyon below.

When Abe caught up he blurted out again:

"Well say," where is this layout, I'm pretty tired chasing brooklets?"

The guide lit his pipe and softly answered:

"Well I've lost the stream leading to the dam and I don't guess we'll find it."

Abe was disgusted clear into his shoes and offered the fellow a \$20, four o'clock cutaway for \$8.50 if he would secure some trout for him before Hume Yerington and Geo. Givevich here in sight.

Nothing could be done however, and the knight of the rod came into Boca about 8:30 without a fish of any description.

He still believes if the dam can be found, that a great haul is in store for him, and the boys have detailed him to find out what kind of a fly is the best to use in catching the trout which bites at all hours of the day and night.

Another Strike.

Mason Crummes of Gardnerville, H. Jepson formerly of the St. Chas. Hotel and Chas. Dudley have made a rich strike south of the El Dorado Canyon mines. They have already sent a ton of ore to mill and it brought \$500. They immediately went deeper and the rock increased in richness. The mine is situated on the highest peak near the summit between Pine Nut and Smith's Valley. One man guards the mouth of the shaft while the other two work. The surrounding camps are in a state of excitement and it is thought the men have struck the famous lead between the Comstock and Death Valley.

He is no Goldbug.

J. L. Campbell of Dayton publishes the following in the Lyon County Times:

"I notice that the bolters from the Republican Convention held in Reno this week, have me upon their State Central Committee as a member from Lyon county. As I am in favor of the free coinage of silver and the advocate of no man for President who is not, I take this method of stating to the public that I must emphatically decline to accept the appointment tendered me.

J. L. CAMPBELL."

The Circuit Court.

The case of Drake vs. the Found Treasure Mining Company to recover \$2,500 on a promissory note was presented Monday and laid over, also the case of U. S. vs. Dorsey to compel him to remove fences he had placed on Government land. Since the beginning of the suit in 1890 Mr. Dorsey has purchased the land in question. As it has been decided to Nevada it is probable that the case will be dismissed. Further hearing of testimony was continued until one week from today. J. W. Dorsey is attorney for the defense in both the above cases.

A peep into the private office of Chas. W. Friend, the State Meteorologist and independent sideralist will reveal some rare astronomical instruments and many able works on the subject. Against the stone pillar upon which is mounted the telescope he has a clock which keeps "star time," and over his desk is a time piece which, to use his own expression, keeps "hash time." By the former he makes his observations and by the latter he goes to his meals.

The signal flag indicates fair weather, with stationery temperature.
